

# IREADY MOY TESTING

We will begin our iReady Middle of the Year Testing this Wednesday, January 22nd For Reading and Thursday, January 23rd for Math. We look forward to seeing our students' growth, and we need your help. Please follow our suggestions to help your scholar have a successful Testing experience.

Bring charged Chromebooks and chargers each day that they are testing.

Student devices must be functioning properly for the assessment. If you are experiencing issues with your chromebooks please see Ms. Williams, Assistant Principal.

To create a productive testing environment, We will require students to place their phone and other connected devices in their back packs and leave their backpacks in the front of the room.

Students will need headphones for the assessment. They can bring their own, but we will also provide them.

Finally, Attendance is very important. Please arrive to school on time. Our tardy bell rings at 8:30am.

For a pleasant testing experience, please ensure that scholars are well rested. Breakfast is provided in the morning. Please arrive by 8am to have breakfast. Please encourage your child to eat a healthy breakfast.

It is important that students take this test seriously. To encourage our student to do their best, we are inviting all students who complete their test, without getting a Rush flag alert to an Ice cream social.

Thank you for partnering with us to ensure the success of our scholars.
